

## Questetra: Cloud Workflow New Version Enhances Monitoring - Provides the Progress Indicator for Every Employee of Their Own -

Kyoto, Japan -- November 13, 2012 -- SaaS vendor company Questetra, Inc. has published the new version 9.2 of the cloud-based Workflow product "Questetra BPM Suite SaaS Edition" on Nov. 13th, 2012. In the new version, it's available to easily check, the progress of the projects that a User has personally involved, on the work flow diagram. By clicking the business process, it is also possible to display a list of projects that are stuck.

In the "Quote Approval Workflow", for example, if a salesperson has been submitted for approval on multiple Quotes, the salesperson will be able to check what stage the approval is, easily on the work flow diagram.

### Questetra BPM Suite

Questetra BPM Suite SaaS Edition, the cloud based Workflow system, is a service to design a flow of your Business on the Internet. It makes handling business data smoothly in various works such as Decision makings, Expense applications, Complaints support. Also, it helps continuous business improvement by visualizing 'who did what' and 'time spent to process'.

Because it can be designed without programming even complicated conditional split or collaboration between Workflows, not limited to mere approval flow, it can be applied to various other business processes such as Customer Services, Marketing and Product Development. In addition, we are publishing more than 400 business templates which conforming to international standard notation (BPMN 2.0) for Free. (Workflow Samples: <http://en.workflow-sample.net/>)

## New Features of Ver. 9.3

### Process Breakdown Chart by one click - enhanced

The jobs done by a User oneself will be able to be visualized in a Processes breakdown pie chart. Because the data list is narrowed down in the "click in the chart area", you will be able to easily see the project you have recently worked with.

### Monthly Operation Chart by one click - enhanced

The jobs done by a User oneself will be able to be visualized in a Monthly Task Operation bar chart. Because the data list is narrowed down in the "click in the chart area", you will be able to easily see the project you have done in certain month.

### Notification function to the Social Enterprise - enhanced

In the standard equipped social enterprise feature, a new original mascot character will inform the Task allocation. When the deadline is approaching or has been exceeded, it would tweet to you more gently. Watch out, sometimes it would turn into angry face.

### Free Trial

Questetra is always issuing Free accounts on-line. There is neither functional limitation nor Usage expiration. Though, service will be automatically shutdown if not login for 15 days. And the number of users to be register is limited at 5 people. <http://www.questetra.com/trial/>
